ACP MASTERCLASSES

Introduction to Point of Care Ultrasound (POCUS)

This event is part of a suite of masterclasses aimed at Qualified Advanced Practitioners working across multiple specialities within the North East, North Cumbria & Yorkshire region . They are kindly funded by NHS England North East & Yorkshire Regional Advancing Practice Faculty. This event is also supported by g&hCritCareEcho.

Come and join us for an interactive day of seminar and workshop-based sessions that will give you the opportunity to explore how to integrate POCUS in to your daily practice. Guided by experts in the field, you will have the opportunity to gain some hands-on practice utilising simulation and virtual-reality modalities.

Provisional topics to include:

- Principles of ultrasound technology (inc. transducer and mode selection)
- The pearls (advantages) and pitfalls (disadvantages) of USS
- Clinical application of USS
- Training and Accreditation
- Governance

FRI 4TH APRIL 2025

08:30 - 17:00
