# ACP MASTERCLASSES

## Raising the roof on research

These events are part of a suite of masterclasses aimed at Qualified Advanced Practitioners working across multiple specialities within the North East, North Cumbria & Yorkshire region that are kindly funded by NHS England North East & Yorkshire Regional Advancing Practice Faculty. These research-based events are also supported by the International Journal of Advancing Practice, the British Journal of Nursing and 'The Advanced Practitioner' series, Wiley-Blackwell.

### Provisional topics to include:

- How to write for publication (inc. publishing your dissertation project)
- How to lead and perform quality improvements projects (inc. clinical audit)
- How to progress your critical appraisal skills
- How to write a research bid
- How to develop as a qualitative, quantitative and/or mixed methods researcher
- How to make statistics meaningful - a beginners guide
- How to become a peer reviewer
- How to become a textbook contributor
- How to become a textbook editor
- Exploring the challenges surrounding advanced practice research
- Introducing a new UK-wide academy of research in advanced practice
- Introducing the NHS England Multi-professional Practice-based Research Capabilities Framework
