ACP MASTERCLASSES

Mastering Simulation Modalities

This event is part of a suite of masterclasses aimed at Qualified Advanced Practitioners working across multiple specialities within the North East, North Cumbria & Yorkshire region. Kindly funded by NHS England North East & Yorkshire Advancing Practice Faculty. This event is also supported by [Mobile Educational Learning Improving Simulation Safety Activities \(MELISSA\)](#), North East.

Provisional topics to include:

- Introduction to simulation as a pedagogical tool
- Ensuring physical and psychological safety of participants
- Promoting equality, diversity and inclusion in simulated healthcare practice
- Faculty roles
- Developing learning outcomes and writing scenarios
- Promoting validity, reliability and safety of assessment strategies
- Pre-briefing and debriefing: the good, the bad and the ugly
- Standards for simulation-based education
- Simulation on a shoestring: How to integrate high-quality simulation into workplace education with minimal budget
- Simulation on the move: The MELISSA experience
- An exploration of simulation modalities (inc. immersion, virtual reality and artificial intelligence solutions)

FRI 28TH MARCH 2025

08:30 - 17:00
