

## MA Creative & Cultural Industries Summer Task 2021

Before you join us, we invite you to think about your 'ecology' (habitat, place of working or making, spaces of cultural consumption) of culture. What kinds of cultural events do you participate in and 'consume'? What kinds of things do you make, create or produce? Do you help others make things? Who are the other people, organisations and places in your 'ecology'? In the first two weeks of the MA we will be asking you about your consumption of culture and your potential production of it – what you watch, listen to, go and see and what you might make or enable others to make. This helps us to understand you, your aspirations as a cultural agent and manager and the kinds of networks you hope to work within. Please draft 100 words on your ecology and send by email to [martyn.hudson@northumbria.ac.uk](mailto:martyn.hudson@northumbria.ac.uk) and come prepared when classes begin to share with your new Cultural Management network.

Please also join our Facebook and Instagram communities and join us if you can for our student *GoBang!* Event at Cobalt Studios, Newcastle upon Tyne on 30<sup>th</sup> July 2021.
