Welcome Physics Challenge 2022

Welcome to Physics at Northumbria University. From the first day of your degree to the last, you will be empowered to take responsibility for and develop your own learning. This is the beginning of your journey, your future, and we would like to make a start with a Twitter subject challenge! We want you to send a series of 5 tweets about your top five physicists within the last 150 years and their unique achievements. This is also an opportunity for you to consider creating a Twitter account. Start with creating a new Twitter handle (e.g., name_NU_Physics). Research in Physics is fundamental to the distinctive learning experience at Northumbria. So, this twitter challenge is an excellent opportunity to acknowledge how physicists change the world! Please send your tweets by 23rd September by mentioning the Department Twitter handle @MPEE_NU and #NU_Physics_Challenge.

Welcome Physics with Astrophysics Challenge 2022

Welcome to Physics with Astrophysics at Northumbria University. From the first day of your degree to the last, you will be empowered to take responsibility for and develop your own learning. This is the beginning of your journey, your future, and we would like to make a start with a Twitter subject challenge! We want you to send a series of 5 tweets about your favourite astrophysical object or phenomenon, outlining some interesting facts about that object/phenomenon and an explanation of why it is your favourite. This is also an opportunity for you to consider creating a Twitter account. Start with creating a new Twitter handle (e.g., name_NU_Physics). Research in Physics is fundamental to the distinctive learning experience at Northumbria. So this twitter challenge is an excellent opportunity to acknowledge how diverse and interesting the Universe is! Please send your tweets by 23rd September by mentioning the Department Twitter handle @MPEE_NU and #NU_Astro_Challenge.
