

## Computing and Information Sciences Modules for 2019/2020

Module Code	Module Name	Study Period	UK Credits	ECTS	Prerequisites
KC5010	Personal & Professional Development Planning	Semester 1	20	10	
KC5014	Enterprise Project Management	Semester 1	20	10	Some knowledge of Project Management
KF5002	Web Programming	Semester 1	20	10	Knowledge of HTML, CSS, PHP, SQL
KF5004	Advanced Operating Systems 1	Semester 1	20	10	
KF5008	Programme Design and Development	Semester 1	20	10	Needs Java Experience
KV5003	Human Computer Interaction	Semester 1	20	10	
KC5013	Application Design and Development	Semester 1 and 2	20	10	Some experience in programming Knowledge of Java
KC5011	Integrative Consultancy Project	Semester 2	20	10	
KC5016	Integrated Enterprise Systems	Semester 2	20	10	Has a business rather than technical focus
KF5003	Network Technology 2	Year-Long	20	10	Only suitable for students from networking background
KF5005	Principles of Digital Security and Forensics	Semester 2	20	10	Basic knowledge of security and forensics
KF5007	Security Case Project	Semester 2	20	10	
KF5012	Software Engineering Practice	Semester 2	20	10	
KF5042	Intelligent Systems	Semester 2	20	10	
KV5002	Computer Networks, Security and Operating Systems	Semester 2	20	10
