

Year Long Mechanical Construction Engineering Modules for 2020/2021

These year-long modules are only available to year-long exchange students.

Subject	Module Code	Module Name	Level	UK Credits	ECTS	Prerequisites
Civil Engineering	KB5020	Engineering Geology and Geotechnics	5	20	10	Previous knowledge of soil mechanics required
Civil Engineering	KB5025	Hydraulics and Hydrology	5	20	10	Previous knowledge of fluid mechanics required
Civil Engineering	KB6022	Geotechnical Engineering	6	20	10	Sound knowledge of soil mechanics and engineering geology required
Civil Engineering	KB6048	Structural Analysis and Modelling	6	20	10	Sound knowledge of structural analysis required
