

Semester 2 Computing and Information Sciences Modules for 2020/2021

Module Code	Module Name	UK Credits	ECTS	Pre requisites
KC5011	Integrative Consultancy Project	20	10	
KC5016	Integrated Enterprise Systems	20	10	Note this module has a business rather than technical focus
KF5005	Principles of Digital Security and Forensics	20	10	Basic knowledge of security and forensics required
KF5007	Security Case Project	20	10	
KF5012	Software Engineering Practice	20	10	Knowledge of programming in Java and software development required
KF5042	Intelligent Systems	20	10	A pre-requisite for the students who will take KF5042. We assume all student should have taken KV4000 Introduction to Programming and/or having basic programming knowledge (if they are transferred from another course) before doing KF5042.
KV5002	Computer Networks, Security and Operating Systems	20	10	There is no specific pre-requisite for KV5002, but students are expected to have some knowledge of programming.
