How to access Adobe software
- Students

Adobe have changed the way their products are accessed, requiring every user to have an account to ‘grant’ access.

Rather than give every one of you an extra Adobe account to manage, we’re linking up your Northumbria account. So, when you access Adobe products and are prompted to login, you’ll just need to enter your Northumbria email address.

1. A sign in page will appear.

2. Do not enter any details at this point, instead click **Sign in with an Enterprise ID**

3. The screen will switch and you’ll be prompted to enter your Northumbria email address.

4. Hit enter on your keyboard and Adobe will sign you in.

Where can I access Adobe products?
Adobe Creative Cloud products are available on campus in Digital Commons and Open Access areas. Follow the steps above to login and you’re good to go.
