How to Access My Grades in Blackboard Ultra
This guide will demonstrate how to access your grades within Blackboard Ultra.

Accessing the Gradebook (Overall)
To begin to access your grades for your modules at Northumbria University, open Blackboard by navigating to https://elp.northumbria.ac.uk (using the Chrome browser) – you might be prompted to login with your university username and password.

1. From the left-hand navigation on the landing page, click Gradebook.

2. This will load up your modules on the right to begin reviewing your grades. This will give you an overview of all of your modules, including recently marked components.

3. Clicking on the Click to View on any of the modules will load a breakdown of the components that have been electronically assessed on your modules.
4 You can also click on the title of the module to open that modules Gradebook. This is done from the initial Gradebook page.

5 The Gradebook for the module will open and present you a breakdown of the components. Clicking on the title of a component will either load the submission point (for an outstanding assignment – i.e. you are yet to submit to) or the feedback for the component (if marked and the feedback release date has been met).

Accessing the Gradebook (inside of a module)
You can open a module in order to view the Gradebook for that specific module.

1 Open the desired module from the Modules and Programmes tab, clicking on the title of the module to open.

2 Once loaded, from the top right navigation, click the Gradebook icon. The Gradebook will then load.
Once again, the Gradebook for the module will open and present you a breakdown of the components. Clicking on the title of a component will either load the submission point (for the outstanding assignment) or the feedback for the component (if marked and the feedback release date has been met).
